<b>Intro with music</b>	GIVING YOU THE EDGE ON HEALTHY LIVING, HERE'S MAYO CLINIC'S MEDICAL EDGE.
	ONE SIZE FITS ALL MIGHT BE OKAY FOR SOCKS OR A ROBE, BUT NOT FOR HEALTH CARE. TAKE LUNG CANCER FOR INSTANCE.
<b>Dr. Dennis Wigle, M.D.</b>	"WE KNOW THAT DIFFERENT PEOPLE HAVE DIFFERENT PROPENSITY TO DEVELOP DISEASE. THERE ARE DIFFERENT LEVELS OF AGGRESSIVENESS, DIFFERENT TUMORS WITHIN DIFFERENT PEOPLE."
<b>(why-gull)</b>	AND HOW PEOPLE RESPOND TO DIFFERENT THERAPIES IS ALSO CLEARLY DIFFERENT SAYS MAYO CLINIC DR. DENNIS WIGLE. BUT

	<p>PREDICTING WHO'S GOING TO RESPOND TO WHAT THERAPY HAS BEEN A MYSTERY.</p>
<p><b>Dr. Wigle</b></p>	<p>"WE NOW HAVE THE CAPABILITY TO START TO MEASURE THAT IN A TRUE GENETIC SENSE IN INDIVIDUALS—TO TRY AND HELP US DECIDE WHICH PEOPLE MIGHT BE MORE APPROPRIATE FOR DIFFERENT THERAPIES VERSUS OTHERS."</p>
	<p>IT'S AN APPROACH CALLED INDIVIDUALIZED MEDICINE. IT'S JUST A START; BUT DR. WIGLE SAYS THE CONCEPT MAKES THIS A VERY EXCITING TIME, ESPECIALLY IN TERMS OF LUNG CANCER RESEARCH.</p>
