<b>Intro with music</b>	GIVING YOU THE EDGE ON HEALTHY LIVING, HERE'S TODAY'S MEDICAL EDGE FROM MAYO CLINIC.
	BACK ABOUT 70 YEARS AGO, WHEN THEY WERE FIRST DISCOVERED, ANTIBIOTICS WERE CONSIDERED WONDER-DRUGS. BACTERIAL INFECTIONS THAT KILLED SO MANY PEOPLE COULD NOW BE TREATED.
<b>William Marshall, M.D.</b> <b>Track 5 (:35)</b>	"BASICALLY THESE ARE POISONS. THEY POISON BACTERIA, AND THEY SELECTIVELY POISON THOSE ORGANISM'S AND NOT US."
	DR. WILLIAM MARSHALL IS AN INFECTIOUS DISEASE SPECIALIST AT MAYO CLINIC. HE SAYS

	<p>ANTIBIOTICS CONTINUE TO BE A FRONT LINE TREATMENT FOR MANY ILLNESSES. BUT BACTERIA ARE ADAPTING, BECOMING RESISTANT TO ANTIBIOTICS.</p>
<p><b>Dr. Marshall</b> <b>Track 5 (2:18)</b></p>	<p>“WHAT DOES THIS MEAN? IT MEANS THAT WE’RE AT HIGHER RISK FOR HAVING INFECTIONS THAT CAN’T BE TREATED EASILY. IT ALSO MEANS WE NEED TO DECREASE THE RISKS FOR PROMOTING THIS DRUG RESISTANCE.”</p>
	<p>DO TO THAT, DR. MARSHALL SAYS WE NEED TO REDUCE THE MIS-USE AND OVER-USE OF ANTIBIOTICS .</p>
	<p>FOR MORE INFORMATION, TALK TO YOUR DOCTOR OR LOG ONTO MAYOCLINIC.ORG. I’M VIVIEN WILLIAMS.</p>
