Intro with music	GIVING YOU THE EDGE ON HEALTHY LIVING, HERE'S MAYO CLINIC MEDICAL EDGE.
	UNDERBITES, OVERBITES, GUMMY SMILES OR TOOTHLESS SMILES. THEY'RE ALL THE RESULT OF JAW DEFORMITIES. THOSE ABNORMALITIES CAN BE SEVERE OR SUBTLE. SOME CAN EVEN BE CONSIDERED TRADEMARKS.
Eugene Keller, M.D. Track 1 (2:08)	"YOU HAVE THE JAY LENO STRONG LOWER JAW, YOU HAVE THE ANDY GUMP WHERE YOU DON'T HAVE ANY JAW AT ALL."
	MAYO CLINIC DR. EUGENE KELLER EXPLAINS THAT JUST AS SOME PEOPLE ARE TALL AND SOME ARE SHORT, SOME PEOPLE DEVELOP A

	LARGE LOWER JAW AND SOME A SHORT ONE.
Dr. Keller Track 1 (3:11)	“SO IT’S COSMETIC IN THE SENSE OF HOW DO THE TEETH LOOK AND HOW DOES THE FACE LOOK. THE FUNCTIONAL PART OF IT IS, THE TEETH DON’T FIT TOGETHER.”
	AND THAT CAN AFFECT THE WAY YOU CHEW, SWALLOW, SPEAK AND EVEN BREATHE. ORTHOGNATHIC SURGERY - A COMBINATION OF JAW SURGERY AND ORTHODONTICS - REALIGNS THE TEETH AND THE JAW, RESTORING FUNCTION, AND A SMILE TO BE PROUD OF.
	FOR MORE INFORMATION, TALK TO YOUR DOCTOR OR VISIT MAYOCLINIC.ORG . I’M VIVIEN WILLIAMS.
