<b>Intro with music</b>	GIVING YOU THE EDGE ON HEALTHY LIVING, HERE'S MAYO CLINIC MEDICAL EDGE.
	JUST LIKE THE BONES IN YOUR ARMS OR YOUR LEGS, YOUR JAW ALSO DEVELOPS AS YOU GROW.
<b>Eugene Keller, M.D.</b> <b>Track 1 (1:52)</b>	"TWO MAIN THINGS ARE AFFECTED BY THE POSITION AND SIZE OF THE JAW. ONE IS THE WAY YOUR FACE LOOKS AND THE OTHER IS THE WAY YOUR TEETH FIT TOGETHER."
	MAYO CLINIC DR. EUGENE KELLER SAYS MISALIGNED JAWS RESULT IN OVER AND UNDERBITES WHICH CAN AFFECT YOUR CHEWING, SWALLOWING AND SPEAKING. ORTHOGNATHIC SURGERY - A COMBINATION OF SURGERY AND

	ORTHODONTICS – IS USED TO CORRECT THE PROBLEM.
<b>Dr. Keller</b> <b>Track 1 (20:08)</b>	“IT’S LIKE CARPENTRY WHEN YOU CUT THE WOOD OR THE BONE YOU PUT IT IN A NEW POSITION AND NAIL IT.”
	DR. KELLER DOESN’T USE NAILS, BUT HE DOES USE SCREWS AND PLATES TO HOLD THINGS IN PLACE WHILE THE BONE HEALS. AFTER THAT, BRACES ARE PUT ON TO ALIGN THE TEETH.
<b>Dr. Keller</b> <b>Track 1 (6:45)</b>	“IF THE BITE DOESN’T GET CORRECTED PERFECTLY, THEY’RE RARELY CONCERNED. IT’S WHAT THEY SEE WHEN THEY LOOK IN THE MIRROR.”
	FOR MORE INFORMATION, TALK TO YOUR DOCTOR OR VISIT <a href="http://MAYOCLINIC.ORG">MAYOCLINIC.ORG</a> . I’M VIVIEN WILLIAMS.
